

# Select Committee on Pension Policy

P.O. Box 40914  
Olympia, WA 98504-0914  
actuary.state@leg.wa.gov

**October 3, 2005**

2:00 pm - 4:00 pm  
House Briefing Room

## Plan 1 Unfunded Liability Subgroup

### AGENDA

#### (1) Review of Options

- Option 2 - Resume Plan 1 UAAL payments
- Option 4 - Phase-in a step up of UAAL rates
- Option 5 - Establish rate floor with target funding ratio

#### (2) Role of the SCPP - Discussion

#### (3) Next Steps

*SCPP and voting members: Victor Moore (chair); Senator Craig Pridemore; Representative Barbara Bailey ; Glenn Olson.*

Persons with disabilities needing auxiliary aids or services for purposes of attending or participating in Select Committee on Pension Policy meetings should call (360) 753-9144. TDD 1-800-635-9993:

## Review of Options

Select Committee on Pension Policy  
Plan 1 Unfunded Liability Subgroup

October 3, 2005

Matt Smith, EA, FCA, MAAA  
State Actuary

## Options From Executive Committee

- Option 2
  - Resume Plan 1 UAAL payments based on revenue forecast gains.
- Option 4
  - Phase in a step of UAAL rates.
- Option 5
  - Establish rate floor with target funded ratio.

## Option 2

- Unanswered questions:
  - How much money is available?
  - Who pays?
  - How is the money collected?

## How Much Money?

- Revenue forecast revision in September is an increase of \$492.9 million.
  - Additional forecasts in November and February
- Are local and other revenue sources also improving?
  - Local government revenue is largely property-tax based (with caps on rate of increase); and
  - Non-general fund state revenue is more fixed fee based.

## How Much Money?

- What is the priority for pensions as it relates to other budget priorities?
  - The ultimate decision rests with the legislature.
  - \$173 million in GF-S (\$488 million all sources) payments were required for 05-07 before suspension.
  - 03-05 payments were also skipped.

## Who Pays?

- All employers
  - Assumes all employers have had revenue improvements.
  - Assumes local and state non GF-S will have adequate time to modify budgets.
  - All employers would pay their proportionate share.
- State only
  - Could lead to direct subsidy of future local government and state non GF-S payments.

## How is the Money Collected?

- Reinstated employer contribution rate
  - All employers or state only.
  - Rates cannot be split by state GF-S and state non GF-S.
  - TRS rates cannot be split (local vs. state).
- Lump sum GF-S appropriation
  - Excludes local government and state non GF-S

O:\SCPP\2005\Plan 1 UAAL Technical Subgroup\10-3-05\Plan 1 UAAL Options Review

7

## Fiscal Analysis

- For the PERS 1 unfunded liability, each \$100 million collected in the '07 fiscal year will save:
  - \$117 million in interest through 2024 (all funds).
  - \$3.7 million in the 07-09 biennium (GF-S only).
- For TRS 1, each \$100 million collected saves:
  - \$106 million in interest through 2024 (all funds).
  - \$10.7 million in the 07-09 biennium (GF-S only).

O:\SCPP\2005\Plan 1 UAAL Technical Subgroup\10-3-05\Plan 1 UAAL Options Review

8

## Fiscal Analysis

- A 1 percent Plan 1 UAAL rate in PERS and TRS for FY '07 would generate:
  - \$47.4 GF-S impact (\$21.2 million in PERS); and
  - \$60.3 million local government impact (\$45.7 million in PERS)

## Decision Variables

- Who pays?
- How is it collected?
- The timing is assumed to be the beginning of the next fiscal year

## Decision Matrix for Option 2

Who?	How? Contribution Rate	How? GF-S Appropriation
<b>All Employers</b>	<ul style="list-style-type: none"> <li>■ Avoids subsidy</li> <li>■ Assumes added revenue for all</li> <li>■ Assumes time for non GF-S budgeting</li> </ul>	<ul style="list-style-type: none"> <li>■ N/A</li> </ul>
<b>State Only</b>	<ul style="list-style-type: none"> <li>■ Impacts state non GF-S employers</li> <li>■ Ongoing split rates after FY '07 to avoid local gov't subsidy</li> <li>■ Administrative change</li> </ul>	<ul style="list-style-type: none"> <li>■ GF-S impact only</li> <li>■ Future subsidy for local and state non GFS</li> <li>■ Inefficient use of GF?</li> <li>■ No administrative change</li> </ul>

## Option 4

- Unanswered questions:
  - What is the appropriate length/cost of the phase in?
  - Should there be a "catch-up" within the phase-in period to avoid long-term impact?
  - With or without gain-sharing?

## Where are Rates Headed?

- Projection of an ultimate PERS 1 UAAL rate of 3.35 percent starting in 2011-13
- 5.89 percent in TRS 1 starting in 2011-13
  - Note: Ultimate rates exclude the cost of future gain-sharing benefits.

## Length of Phase-In?

- Length will depend on the payment amount in FY '07 (option 2).
- How quickly can PERS employers step into an additional rate of around 3.5 percent?
- How quickly can TRS employers step into an additional rate of around 6 percent?
  - Note: These rates are not the total rates
  - Excludes the Plan 2/3 normal cost rate

## Phase-In Example

(without future gain-sharing)

O:\SCPP\2005\Plan 1 UAAL Technical Subgroup\10-3-05\Plan 1 UAAL Options Review

15

## With or Without Gain-Sharing?

- If gain-sharing continues, UAAL rates will be higher.
- If gain-sharing is traded off for other benefits of lesser value, UAAL rates will be reduced.
- If gain-sharing is repealed, UAAL rates will be even lower.

O:\SCPP\2005\Plan 1 UAAL Technical Subgroup\10-3-05\Plan 1 UAAL Options Review

16

## Cost of Phase-In?

- The cost will depend on several factors:
  - Length of phase-in;
  - Amount of payment in FY '07 (Option 2);
  - Whether the phase-in period includes a “catch-up” payment(s) to avoid long-term interest costs; and
  - Whether gain-sharing costs are included.
- The cost will be determined after these questions are answered.

## Decision Variables

- Assumptions:
  - Gain sharing will be addressed by the legislature.
  - Subgroup will move forward without gain-sharing costs (better than no phase-in).
  - Coordinated with option 2.
- Length of phase-in?
- Include catch-up payments during phase-in?

## Decision Matrix for Option 5

Phase-In Length	Catch-up Payment? Yes	Catch-up Payment? No
<b>Shorter</b>	<ul style="list-style-type: none"> <li>■ Lowest long-term cost</li> <li>■ Highest short-term cost</li> <li>■ Avoids long-term interest cost</li> <li>■ Rate decrease after catch-up</li> </ul>	<ul style="list-style-type: none"> <li>■ Lower long-term cost</li> <li>■ Higher short-term cost</li> <li>■ Long-term interest cost</li> <li>■ Avoids rate decrease after catch-up</li> </ul>
<b>Longer</b>	<ul style="list-style-type: none"> <li>■ Higher long-term cost</li> <li>■ Lower short-term cost</li> <li>■ Avoids long-term interest cost</li> <li>■ Rate decrease after catch-up</li> </ul>	<ul style="list-style-type: none"> <li>■ Highest long-term cost</li> <li>■ Lowest short-term cost</li> <li>■ Long-term interest cost</li> <li>■ Avoids rate decrease after catch-up</li> </ul>

O:\SCPP\2005\Plan 1 UAAL Technical Subgroup\10-3-05\Plan 1 UAAL Options Review

19

## Option 5

- Unanswered questions:
  - What is an appropriate long-term floor rate?
  - What is an appropriate target funded ratio?
  - With or without gain-sharing costs?
  - Effective date?

O:\SCPP\2005\Plan 1 UAAL Technical Subgroup\10-3-05\Plan 1 UAAL Options Review

20

## Example

- The Plan 1 UAAL rate shall not be less than x percent until:
  - The funded ratio exceeds the target; or
  - The amortization date, whichever comes first.

## Judgment Call

- The selection of the floor rates and the target funded ratio require actuarial projections and judgment.

## Recommendation

- Funding target of 125 percent.
- Floor rate for PERS 1:
  - 3.00 percent (with gain-sharing)
  - 2.75 percent (without gain-sharing)
- Floor rate for TRS 1:
  - 5.50 percent (with gain-sharing)
  - 4.75 percent (without gain-sharing)
- Effective date coordinated with phase-in.

## Next Steps?

- Subgroup report to full SCPP in October.
- Subgroup to finalize recommendation(s) before November SCPP meeting.
- Final subgroup report to full SCPP in November.

# SIX YEAR OUTLOOK

September 26, 2005

	2006	2007	2008	2009	2010	2011
<b>Beginning Balance (General Fund-State)</b>	824	868	894	564	213	(199)
<b>Revenues</b>						
BASELINE (September 2005 revenue forecast, 5% annual growth after 2007)	12,758	13,273	13,937	14,634	15,365	16,134

<b>TOTAL POTENTIAL GAP</b>		<b>885</b>	<b>190</b>	<b>(322)</b>	<b>(951)</b>	<b>(1,667)</b>

## \*BASELINE EXPENDITURE ASSUMPTIONS

Assumes enacted 2005-07 budget.

Based on June Caseload Forecast Council (CFC) forecasts.

Assumes all other programs grow based on OFM population cohort forecast, and CFC forecasts where applicable.

Assumes vendor rate increase based on Implicit Price Deflator (IPD).

Assumes 3% inflation for non-Medical Assistance DSHS health care related programs (Developmental Disabilities, Long Term Care, Alcohol and Substance Abuse, Mental Health).

Assumes average debt service growth of 6.5% per year over forecast period.

Assumes "all other objects" (excluding salaries, benefits, pensions, vendors) grow by IPD plus one-half associated caseload or population growth.

Pension funding does assumption payment of unfunded liability, but does not include gain-sharing, which would cost \$186 million in 2007-09, and \$207 million in 2009-11.

\*\* Does NOT include 2007 the one-time 1.6% salary increase in the base for future calculations per negotiated contracts and budget bill language.
